Built for cities and managed by cities - we provide the platform.

About One World Strong (OWS)

The One World Strong Foundation is a nonprofit organization dedicated to improving the lives of individuals and communities impacted by violence and mass casualty events and to help each community find and access the resources they need.

Mission

Our mission is to establish vibrant and safe cities and towns that are connected to their communities to insure that support services are consistently easy to access and useful to the public they serve.

Services

- Easy access to citywide service for community members
- The App translates in over 126 languages
- Violence prevention resources
- Contact information for relevant mental health services
- Secure chat function to engage in real-time with a trained mental health professional
- Access to the Prevention Practitioner Network
- A growing library of resources for individuals, educators, and families
- Peer-to-peer support

Virtual Reiliency Center (VRC)

The VRC is designed to support individuals, families, and first responders impacted by violence and mass casualty events stay connected no matter where they live. Offering a safe, secure, online center that allows for connection and resources in several languages.

Key Features of VRC

- Provide a trusted online service to victims, survivors, and those impacted by violence and mass casualty events.
- A solution for communities to respond rapidly to offer support in the wake of traumatic events.
- Peer-to-Peer Support. Available 24/7 and accessible in over 126 different languages.
- Consistently updated content in realtime by VRCs and City Administrators.
