

The Youth One World Marathon

What is the Youth One World Marathon?

The Youth One World Marathon is a movement (running, walking, rolling, ect.) and team building event created and implemented by the One World Strong Foundation that exemplifies and promotes the core principles of unity, peace, collaboration and connection through running and other healthy physical activities.

The implementation of a strong, unified virtual platform that supports the message of connectivity and openness contradicts the basic premises of bigotry and separatism; providing a rigorous counter narrative to those produced by violent extremism and terrorist rhetoric.

By providing an opportunity for youth from around the world to participate together in a virtual marathon we foster the development of a global citizen mindset. Participation and the resulting experiences and stories build awareness and generate support for those that struggle with both the physical and mental challenges related to trauma. Our participants begin to learn that when a diverse global community of caring people work together toward a common goal they can change the world.

Who can participate?

The Youth One World Marathon is designed for school age children, teens, and young adults into their early 20's. It is ideal for schools, YMCA's, sports clubs and other youth serving community organisations. An adult "Team Captain" is responsible for registering each class or group. Each team will be encouraged to partner with at least one team from a different country to connect people from around the world.

Teams may contain any number and age of participants. A central objective of the event is to connect people across borders and diverse backgrounds, therefore we encourage teams that represent multiple continents, countries and cultures. For example, schools and individuals in any country can pair with peers in the Middle East, North America, Africa, Europe, Australia, or Asia. Using existing social media and communication channels on the One World Strong website, teams can organise, communicate and track the contributions of their members throughout training and during the marathon weekend. Shared experiences and stories will

further endorse the marathon's message of cross-cultural collaboration, interpersonal connection and teamwork.

How will teams from around the world communicate?

By joining, you will become part of an international community and a force for goodwill. One World Strong will provide a dedicated video conference channel to facilitate partner team communication. Partner teams are encouraged to interact and share preparations, training and to learn about each other in the spirit of cross-cultural immersion.

When is it happening?

- Registration will begin in the late summer and early fall of 2019. Simply log on to the website (oneworldstrong.org) to learn more about registering your team.
- Throughout the late summer and leading up to the event, inspiring messages will be sent to registered participants from every corner of the world. A simple downloadable resource pack including will be available in mid-September for teams to use in their classrooms, youth centers, and other gathering places.
- The Youth One World Virtual Marathon will start on Friday, October 4th 2019 simultaneously with the actual Amman Marathon Children's Race in Jordan and ends on the 8th October at 14.30 (BST) with a series of global video conference. Schools and universities from across the world will joining together to share their experience of contributing to the first Youth One World Marathon.
-
- Kick-off Zoom calls will take place involving team coaches from around the globe and setting the stage for the October event.
- Participants will share stories and experiences via social media, helping to build relationships and bridges of understanding. **Hashtag:** #OWM2019 **Tagline:** One World, One Future Together, Never Give Up

Who is the One World Foundation?

- The One World Strong Foundation is a 501(c)(3) charity, founded by survivors of the Boston Marathon bombing, endeavors to create a thriving global community of survivors of terrorist and extremist attacks in nations around the world. The Foundation embodies the core principles of unity, connection, and cooperation as the pathway to a more harmonious future. By fostering resiliency and a counter narrative through shared stories, OWS supports the core belief that people of all nations should work together peacefully toward common goals.
